

```
In [139]: sns.barplot(x=genre_top10.index,y=genre_top10.CVotes1000)
plt.xticks(rotation='vertical')
plt.show()
```

Inferences: Write your inferences/observations here.

Sci - Fi seems to be most popular among the voters. It also appears like all the genres have greater than 50% of the votes from 1000 voters. There is very less variation of votes in top 4 genres(Sci-Fi, Action, Thriller, Adventure).

Checkpoint: 6: The genre Romance seems to be most unpopular among the top 1000 voters.

With the above subtask, your assignment is over. In your free time, do explore the dataset further on your own and see what kind of other insights you can get across various other columns.
